About me

At present, I work as a consultant in the field of SAP analytics consulting. Thanks to hard work and inquisitiveness, I was able to quickly develop into an essential building block of the respective teams in diverse positions. Possible lack of knowledge or training imposed in no way an obstacle due to my resilience. Leadership responsibility, the ability to work in teams, creativity and stress resistance belong to my most noticeable social skills.

Skills

German, Portuguese, English

Spanish, SQL

Self-motivation & Independent work

MS Office

Python/R/SAC

Analytical Skillset

Learning Ability & Team spirit

Professional Career

2022-today   **Consultant Enterprise Performance**   Deloitte, Munich
- Building and integrating **data models** ensuring **efficient data loading processes** within the **SAP** framework.
- Building **applications** in the **SAC** environment. This includes the implementation of **Data-Actions** and the **programming non-SAP-native** functionalities using **JavaScript** (e.g. the **custom-made Input-Control panel** to handle the vast amount of Dimensions).
- **Co-founder** of the **SAP Advanced Analytics** Peer Group, focusing on integrating **Machine Learning algorithms**, e.g. to **predict** CO_2 emissions, into SAC.
- **Coordination** and **introduction** of new joiners into existing projects and direct support within the **SAP bootcamp**.
- Part of the **Communications** team with responsibility for the **international corporate appearance** of the peer group.
- Assisting in the **creation** and **presentation** of **proposals** acquiring new projects.

2020–2022   **Audit Corporate Senior Associate**   KPMG, Hamburg
- Audit of relevant parts of annual financial statements. These include the areas of **purchase**, **sales**, **accruals** as well as the verification of **System integrity** using several **sampling methods**. Further, the final critical appraisal of the **appendix** and **management reports**.
- Recording and verification of material corporate **processes** and **controls** (**JSOX**, **US-GAAP** and **GITCs**) also in the area of **aviation**.
- **Statistical analysis** for trend and outlier detection.

2019-2020   **Junior Controller and Data Protection Coordinator**   expert, Hanover
- Part of the Corona task Force responsible for **Risk management** (**Simulations** of possible financial outcomes of the crisis as well as the communication to banks concerning subsidies and pledges) securing solvency of the mother company for the upcoming three months.
- **Calculation**, **planning** and **analysis** of **operative** and **performance figures** (via **VBA**) as well as **communicating** those to **stakeholders**.
- Ensuring the compliance with **GDPR** requirements, data protection as well as In-House consulting organising and employee training.

2019   **Working Student in the field of Controlling**   expert, Hanover
- Enquiry and acquisition of **subsidies in the upper six digit range**, primarily for the construction of a warehouse at the headquarters, as well as performing commparative studies of leading **Business Intelligence Tools** concerning performance, UI and integrability.

2016-2019   **Deputy Cinema Manager**   Kinowelt
- Deploying a product portfolio by creating a **performance analysis** of more recent films and **profitability analysis** of the menu.
- Planning and execution of **marketing measures** which were also **received by media** (https://bit.ly/2UnrmTZ) and in consequence led to the invitation to the German premiere of the movie "Deadpool 2" (https://bit.ly/301GXMx) and a **Keynote Talk**.
- **Human resource management** by recruiting, creating and maintaining shift schedules and dismissal, once needed.
